"Where Quality Comes Before Price"

Easter Sunday Fall on March 31st

The Earliest for Many Years

Time now
for
selecting
your
Easter
Apparel

Only one week to go, and Easter never failed yet to bring new interest and creations in Clothes and Hats, for it is the birthday of the new spring seasons and Laslett's, Coleman, is the place.

Everything must be new. Never were Easter Hats more attractive, and never was there such a showing in this district as there is now at Laslett's, Coleman.

Hats more attractive, hats more inviting, hats more wearable, hats to fit every head and in such gorgeous colors, hats that look as if they were specially created for Easter. Tailored simplicity. Close little shape and many in new larger lines. A glance through our stock will convey to you all the latest fabrics, trimming, touches and colors, that you see nowhere else.

No danger of meeting your hat coming down the street if you buy it at Laslett's, Coleman. We have model hats for the lady who wishes individuality with no chance of duplication, imported from Paris and Seattle, and the price so reasonable.

Buy your Easter Apparel and your new hat from Laslett's, Coleman.

Annual Meeting of Tennis Association

Annual Tournament Will Be Held at Cranbrook or Fernie Probably on July First.

The Crow's Nest Pass Lawn Tennis Association annual meeting was held at the Greenhill hotel on Friday evening, A. Hnatyshyn, president, in the chair. Election of officers resulted in Geo. P. Simpson of Cranbrook being elected president. As it is the custom of the association for the president and secretary to be elected from the same club, Mr. Simpson was empowered to appoint his own secretary.

The annual tournament will be held at Fernie or Cranbrook in accordance with the rules of the association, which provide that the tournament shall alternate between the west and east districts.

R. F. Barnes of Coleman represented the local club at the meeting.

SUNDAY CONCERT BY COLEMAN ORCHESTRA IN OPERA HOUSE

A very fine program has been prepared by the amateur orchestra under the leadership of Mr. J. M. Fulton for Sunday evening at 8 o'clock, which the public are cordially invited to attend. There are 26 instrumentalists, including several from Bellevue and Hillcrest, besides which several well-known singers will give selections. A large number of programs have already been disposed of for 25c each, to defray the expenses of the orchestra.

Miss Martin and Miss Lepnick, sopranos, of Hillcrest, and Mr. A. Phillips, baritone, of Coleman, will take part.

GOOD FRIDAY AND EASTER AT ST. ALBAN'S CHURCH

Good Friday, Meditation service from 2 to 3 p.m.

Easter Sunday, Holy Communion at 7:30 a.m. and choral communion at 11 a.m. The choir will wear their surplices for the first time, and hymns and music appropriate to the day will be sung.

Children's service at 2:30 p.m., when prizes for attendance will be given. Parents and those interested in the work of the Sunday School are invited.

The memorial bell donated in memory of Mrs. Snod will be rung for the first time on Easter Sunday, fifteen minutes before each service and three minutes immediately prior to the service's opening.

The Junior W. A. will hold a whist drive in the parish hall on Easter Monday evening at 8 o'clock. Admission 50c.

SALVATION ARMY EASTER SERVICES

Good Friday service at 3 p.m. Easter Sunday 11 a.m. Sunday School at 2:30 p.m. Evening service 7 p.m. All are cordially invited to attend these services.

CELEBRATING VIMY RIDGE

A grand smoker has been arranged to take place on Monday, April 8th, in the club rooms of the local branch of the Canadian Legion, to celebrate the twelfth anniversary of the Canadian troops taking Vimy Ridge. A grand program has been arranged, and the admission will be \$1.00. Tickets may be had from the secretary, Robert Parry.

NOTICE TO MERCHANTS

Counter Check Books may now be obtained through The Journal office, as we have the sub-agency for McCaskey's Limited of Calif. Ont. Best quality books at lowest current prices sold. Keep this in mind when you are asked for orders by out-of-town salesmen, and place your order locally.

Buy Advertised Goods

Patronize those who advertise in The Journal, for if a store is enterprising enough to carry its message through the local newspaper, it is deserving of your attention when on your shopping tour, and remember it is by buying advertised goods with the prices clearly stated that you usually get the best values. Advertising not only begets goodwill, but it also helps the confidence of the public.

COLEMAN BOY HONORED BY VICTORIA HOCKEY FANS

Jimmy Evans, star centre player of Victoria (B.C.) Cubs, during the playing season, so gained the interest of the fans that he was presented with a silver cup, engraved as follows: "Fans Cup, Most Valuable Player, Victoria Hockey Cubs, 1928-29." The cup has been received by Jimmy's father, who has it displayed in the window of the Belmont Cigar store. His achievements in coast hockey circles have been very favorably commented on by sports writers on the coast dailies, and his old playing mates here are very gratified to hear of his success. It is probable he will come to Coleman for a visit when the playing season is concluded.

HAVE YOU ANY GEM STONES?

The Sanyel Trading Co. of Tokio, Japan, writes to Coleman Board of Trade asking if anybody in the district has any geological specimens or gem stones, and if so they would be pleased to hear from them. The address may be obtained by anyone interested on applying at The Journal office.

INTERESTING PICTURE

"The Bellamy Trial" at the Palace last Friday was a picture out of the ordinary. Often one becomes tired of sloppy and slushy sentimentality which some producers appear to think the public like, but this picture is a very accurate picturization of a murder trial which if it did nothing better would enable those unacquainted with the procedure to see how a trial of this nature is conducted. It did not pander to the sordid or sensational, and the director, Monta Bell, himself a former newspaperman, is to be complimented on his fine discernment in directing a picture of this type. It was a distinct change and the element of mystery was maintained almost to the close of the picture.

'BIG SIX' FILM DEMONSTRATION WAS INTERESTING

The moving pictures exhibited in the show rooms of Sentinel Motors on Monday evening, by an expert of the General Motors, giving a presentation of the new Pontiac "Big Six," proved very interesting.

Three unique picture films formed the basis of the presentation, and particularly interesting was the film showing the interior workings of the various Oshtera plants. The assembly line, where naked frames are pulled on long tracks by slowly moving chains which never stop, give a clear idea of the speed with which cars are assembled and completed.

Another film showed the activity of the General Motors Service School at Oshawa, showing that the company is not merely satisfied with selling a car, but is vitally interested in training mechanics throughout Canada to service cars at the highest point of efficiency.

You hope to succeed here, you are working to the end, but before you succeed your customers must also be successful. Spending your money with Alberta, industries or Alberta wholesalers, you assist in providing employment, new wages, more spending power for those with whom you do business—Extract from letter sent out by Alberta Development Board.

COMING! ACTION AHEAD!

Richard Dix, in "Redskin"

An Amazing spectacle in color: A tender, throbbing love story, dramatizing the valiant struggle of the Indian against white domination. Dix's Greatest, filmed in color.

One Nation. Two Cultures

The Dominion of Canada is a great heritage. It has many great problems to solve in order to achieve its destiny. Before Governments and people can successfully cope with these problems the citizenship of the Dominion must become imbued with, fully accept, and earnestly practice the "Spirit of Confederation" which animated the leaders in the public life of this country sixty odd years ago. The names and memories of the Fathers of Confederation are held in honor, not only for what they achieved, but because of the true patriotism expressed through real sacrifice by which union became an accomplished fact.

It is no light matter to speak of the Spirit of Confederation. It was a very real thing. It breathed through every utterance of the men who found it necessary to sink political differences, submerge personal views and convictions, abandon policies dear to their hearts, and accept compromises falling short of what they desired. But they did it, knowing that only so could disaster for British and Canadian interests be averted and the future of the northern half of the continent under the British flag be assured. It was this spirit which alone made Confederation possible and carried it successfully through the stormy early years.

This same spirit is just as vitally necessary in the life of Canada today as it ever was in the past. Without it the Dominion could not have had its being; without it the Dominion cannot continue to exist.

The great challenge which Canada presents to the world at large, and, of course, most vitally of all to her own people, is not in the material realm of trade and commerce, but in the spirit of the people of the Dominion composed as they are of two great races, two great forms of religion, speaking two languages, and the product of two cultures. Canada's challenge to the world is to be found in our success or failure to consistently live up to the Spirit of Confederation and make it a living vitality in the life of the Dominion. This is Canada's challenge to the world because the issues of world peace or war are wrapped up in the solution or exact similarity problems in the nations of Europe and across the Pacific.

The problem before the Fathers of Confederation was whether the existence of two races, two languages, two cultures in Canada was an insurmountable obstacle to the creation of a single, united nation, and whether such a nation could exist on the basis of that fact. Their decision was that such a nation could exist, and they laid down the formula in the British North America Act. Confederation became an accomplished fact, and it has not only survived but progressed and grown to an amazing extent.

There is one Canadian of French race and language for every two Canadians of English race and language. How shall both feel that common love for home and soil which is the soul of nationality? Both races have traditions, a part of their own. On what principle and to what ends may both races have a common national future?

These vital questions cut clean through the whole of our national life today, just as they did prior to and at the time of Confederation. Shall the people of Canada, with so vast a estate to develop in common, with so great a part to play in elevating the quality of living, and so noble an opportunity awaiting them alike in the British Empire and in the sphere of international relations, always be faced with the menace of racial discord, or attacks by one race on the integrity of the other, or recourse to enbittered discussion of rights that should be secure, or wrongs that should have been corrected, when scores of social and economic problems are crying out for solution? Race is like a car left with its engine running. The slightest touch will put it in gear and set it speeding towards some bitter accident.

In the nineteenth century Lord Durham's policy was the "obliteration" of the French-Canadian. The policy of the Fathers of Confederation was the recognition of the identity of both races, both languages, both religions, both cultures. Their ideal was one nation, two cultures; one nationality, two languages; one loyalty, two races.

Which policy was practical? To obliterate a whole people, or to form a nationality in which the identity of two peoples might be secure, free, developing? The Fathers of Confederation had the only practical policy, the only policy that would ensure peace, make the progress of Canada possible, and establish a new nationality in British North America.

Small Suns Compose Stars

Partially Eclipse Each Other Every Twenty-Four Hours

In Castor's solar system there is a star of the ninth magnitude known as C. It is composed of two small suns, each about half as massive as our sun and but little more than half the diameter, though of much greater density. They appear to be dying down into the planetary stage, or burned-out condition, for they shine with a reddish light and possess a much lower surface temperature than our sun. This pair of twin worlds in the making are at an average distance apart of 1,700,000 miles, and they appear to revolve round one another at great speed in about twenty hours, partially eclipsing each other every time, as seen from the earth. We do not see the effect of these eclipses until forty-three years after they occur, owing to the great distance (2,730,000 times that of our sun) of this marvelous solar system of Castor.

VITAMINS

Everyone needs them to support growth or to protect the body against germ-infection.

Scott's Emulsion abundantly rich in vitamins is of great importance in all run-down conditions of the body. Scott's Emulsion builds strength.

Fellowship Honor For

Manitoba Professor

Dr. Butler Will Be First F.R.S. In Prairie Provinces

Dr. A. H. Regional Butler, head of the department of botany, University of Manitoba, has been selected for the fellowship honor by the Royal Society of London, England. He is one of 15 candidates on whom the honor will be conferred in May, and will be the first F.R.S. in the prairie provinces.

Dr. Butler has been carrying on research work in connection with wheat for 32 years and his valuable contributions to science in this respect caused him to be singled out for the honor. He is the author of various books dealing with wheat rust fungi.

It Has Many Qualities.—The man who possesses a bottle of Dr. Thomas' Eucalypti Oil is armed against many ills. It will relieve a cough, break a cold, prevent sore throat; it will rid the swelling from a sprain, relieve the most persistent sores and will speedily heal cuts and contusions. It is a medicine chest in itself.

There are 320 foreign consuls and consular agents in Canada with the dozen of all T. M. Owen, the United States consular agent at Annapolis Royal, N.S.

In one month, last year, 100,000 New York families, involving at the lowest estimate 300,000 people, moved from one apartment to another.

Minard's Liniment prevents Flu.

Wool By Aeroplane

Australian Company Considering This Means Of Transport

Transport of wool by aeroplanes is being considered by Australian Air Services, Ltd., in districts where camel caravans are now employed. The company in Melbourne has already received a request from a station owner in Northern Victoria for specifications and an estimate of cost of freight plans to carry his wool over a difficult 500 miles of the journey to the nearest seaport. The transport of freight in the district in which the station is situated costs about \$30 per ton, and a plane will be able to transport freight over the distance in a day whereas several weeks are often required.

Toes Made Comfortable Sore Corns Removed

Quick, safe relief is almost instantaneous if you apply PUTNAM'S CORN EXTRACTOR. Shows how! One single drop of Putnam's stops the pain. A few applications make the corn dry up and drop off. Putnam's Corn Extractor gives satisfaction. Thousands use it every day. Get a bottle from your druggist. Refuse a substitute for "Putnam's" the one sure relief for sore corns.

Can See Two Oceans

The inhabitants of Costa Rica say that the only place commanding a view of the Atlantic and Pacific ocean is the summit of Mount Irazu, situated in Cartago Province. The mountain is 12,500 feet high, and the Costa Ricans assert that on a clear day it is not difficult to see the waters of both oceans with the naked eye.

DO YOU SUFFER FROM RHEUMATISM

For Relief You Must Reach the Root Of The Trouble In the Blood

Sufferers from rheumatism who have found their condition unrelieved or actually growing worse while using other remedies, would do well to try Dr. Williams' Pink Pills. This tonic treatment with this medicine has proved in thousands of cases that it builds up the blood to a point where it enables it to cast out the rheumatic poisons through the regular channels, the bowels, kidneys and the skin. When this is done rheumatism is banished and as long as the blood is kept pure and rich there will be no return of the trouble.

That Dr. Williams' Pink Pills do what is claimed for them is proved by the case of Mrs. Elsie A. Munro, Sarnia, Ont., who says: "I was a helpless invalid for a year with inflammatory rheumatism. I had medical treatment and took mineral baths, but with no result. Naturally I felt utterly discouraged, and was suffering greatly. Then one day I read in a local paper of a case similar to mine, in which great relief was given to Dr. Williams' Pink Pills and I decided to give this medicine a trial. It is now with the greatest pleasure I write to tell you that in less than two months after starting the use of Dr. Williams' Pink Pills I was able to get up and walk about as well as ever I did. I can never praise these pills too highly and I hope that in making my experience public it may benefit some other sufferer."

A very useful book "Building Up the Blood," will be sent free on request by The Dr. Williams' Medicine Co., Brockville, Ont. Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, post paid, on receipt of price, 50c. a box. Try them today.

Many western Canadians will make a tour of the Maritime Provinces in June, under the auspices of the "New Outlook," official publication of the United Church in Canada, and the Canadian National Railways.

Neighbor: "What is your son taking at college?"
Dad: "All we can send him."

COULD NOT WORK FOR MONTHS

Restored to Health by Lydia E. Pinkham's Vegetable Compound

Port Elgin, N. B.:—"For three months, I was nervous and weak with tired feelings and could not do my work. A friend advised me to take Lydia E. Pinkham's Vegetable Compound and I have got good results from it and recommend it to others."—LITA TAYLOR, Port Elgin, N. B.

This dependable medicine is sold by druggists everywhere.

Sure Of Hoover's Support

League Of Nations Has Good Friend In U.S. President

What stand will President Hoover take in regard to United States cooperation with the League of Nations? Supporters of the League, while they have practically abandoned any hope that the States will become an active member of the League, feel that in Mr. Hoover they have the strongest support of its policies since the regime of President Wilson.

They base this belief on the fact that in 1919, President Hoover was an ardent advocate of United States entry into the League and that while bound by loyalty to his party to take an opposite point of view he will always remain at heart a strong proponent of League ideals.

It cannot be said that League supporters in Mr. Hoover had a genuine ignorance or tepid acquiescence was all that could be expected from the former chief executive. Always he appeared to be dominated by the small town point of view of the majority in American in his dealing with the League and constitutionally he seemed incapable of thinking on an international plane.

While the new president is also bound by party considerations it is believed that by every means in his power he will strive to represent that sizable minority in his country who fervently advocate closer co-operation with the League in maintaining world security.

Many have been relieved of corns by Holman's Corn Remover. It has a power of its own that will be found effective.

Recipes For This Week

(By Betty Barclay)

BREAD PUDDING DESSERT

- 1 package lemon junket
- 1 pint milk
- 4 slices bread.
- Butter.
- Raisins.

Remove crust from bread, butter lightly and cut in small cubes. Divide the cubed bread among dessert dishes and add a few seeded raisins. Warm the milk to lukewarm—not hot; add the lemon junket. Stir until dissolved; pour over bread. Let stand in a warm place until firm—then chill. Sprinkle with a mixture of sugar and cinnamon before serving.

SCALLOPED DISHES

Pour over layers of well-seasoned meat, fish or vegetable enough medium cream sauce to cover. Sprinkle well with buttered crumbs and bake until brown. When combined with starchy dishes such as potato or macaroni, use thin cream sauce. Medium cream sauce calls for 1 cup milk, 2 tablespoons flour and 2 tablespoons butter. Thin cream sauce calls for 1 cup milk, 1 tablespoon flour and 1 tablespoon butter.

There is nothing repulsive in Miller's Worm Powders and they are as pleasant to take as sugar, so that few children will refuse them. In some cases they cause vomiting through their action in an unbound stomach, but this is only a manifestation of their cleansing power, no indication that they are harmful. They can be thoroughly depended upon to clear worms from the system.

Big Job For Typemakers

Complete Set Of Chinese Type Will Take Seven Years To Produce

Few will envy a certain Shanghai printing establishment which has been working for three years to make a complete set of type, so that 10,000 Chinese characters (most of China's alphabet) can be printed.

It will exceed by several thousands the number of characters now being used in the printing of the largest of Shanghai's Chinese newspapers.

Since the single symbol, in Chinese, may express a whole idea, an imposing array of type is required by the smallest printing establishment, and the newest alphabet, which will provide each of the 10,000 characters in five sizes, will be a boon.

Each "letter" must be photographed and the impression from the resulting plate tediously tooled by hand. Four more years will be required to complete the work.

Time For Everything

Have a time and place for everything, and do everything in its time and place, and you will not only accomplish more, but have more leisure than those who are always hurrying, as if vainly attempting to overtake time that has been lost.

Minard's Liniment For Coughs and Colds.

PROOF OF DYES is in the dyeing!

Words won't dye a dress, or coat, or sweater. It takes real anilines to do that. That's why Diamond Dyes contain from three to five times more anilines than any other dye—by actual test. It's the anilines in Diamond Dyes that do the work; that give the colors such brilliance; such depth and permanence. It's real aniline that keeps them from giving things that dyed look; from spotting or streaking.

Next time you have dyeing to do, try Diamond Dyes. Turn compare results. See how soft, bright, new-looking the colors are. Observe how they keep their brilliance. Your dealer will refund your money if you don't agree Diamond Dyes are better dyes.

The white package of Diamond Dyes is the original "all-purpose" dye for any and every kind of material. It will dye or tint silk, wool, cotton, linen, rayon or any mixture of materials. The blue package is a special dye, for silk or wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this. The blue package dyes silk or wool only. The white package will dye every kind of goods, including silk and wool. Your dealer has both packages.

New Type Of Flying Craft Traffic Is Increasing

Being Built For British Air Ministry and Is Nearly Ready For Tests
The London Mail says that a flying machine called a "helicopter" is being built at the order of the British air ministry and is nearly ready for tests.

It is a development of the helicopter, and was invented by Vittorio Isacco, who in 1917 collaborated with Pescara in making five helicopters.

The new machine is designed to ascend and descend vertically and to hover motionless in mid-air.

Two New Steamers Ordered For Vancouver-Victoria Night Service

To meet increased freight and passenger traffic on the waters of the Pacific coast, two new vessels of the "Princess" type for night service between Vancouver and Victoria have been ordered by the Canadian Pacific. It is announced by Captain C. D. Neroutos, manager of the British Columbia Coast Steamship service. The two sister ships are to be delivered in mid-August and will accommodate for 430 passengers.

Yours for the Asking

THESE bulletins and pamphlets were prepared and printed for your use. They contain a great deal of very valuable information—worked out by the scientists employed by the Dominion Department of Agriculture. If any or all of them would help you in your work, or in improving your home surroundings, you may secure copies without cost—simply by marking with an "X" the ones you would like, filling in the coupon below, and mailing this advertisement to us. No postage is required.

Bulletin No. 106 "How Best to Water Canada"—practical methods of soil control—non-constant varieties.
Pamphlet No. 81 "The Combined Responder, Threshing in Western Canada"—one of your silver-requirements of present operations—practical to conduct in buying.
Circular No. 62 "Maggot Control in Canada"—tells how to treat the breeding places of maggots so that they cannot multiply.
Bulletin No. 60 "Annual Flowers"—lines and details of all the annuals that will grow in Canada—varieties recommended for different seasons.

PRIVY COUNCIL MAY INVESTIGATE GRAIN QUALITY

Winnipeg.—Possibility of Canada's "certificate final" on grain shipments to foreign buyers being challenged in the Privy Council of England, looms up.

It is learned here that because of shipments of American barley to Germany during the season just closing, which were finally found to be "bad diseased" and which caused the death of stock to which it was fed, there is quite a possibility of a legal review of the validity of the contract which exists between Canadian and American shippers and the London Corn Exchange, acting as the intermediary on such shipments.

As the facts are now known it is stated that following the death of livestock after feeding on this "diseased" American barley, a board of arbitration was set up in England under the rules of the Corn Exchange before which the Canadian grain exchanges presented their complaint.

This arbitration board, it is learned, has now completed the taking of evidence and will submit the facts, in all probability, to an English court in order that the contract between the London Corn Exchange and the foreign buyers might be tested. It is also learned that no matter how the decision may go an appeal will be taken to the Privy Council.

Under the contract referred to between the trade and the London Corn Exchange, it is provided that the Canadian government grade certificate shall be taken as final; but there is another provision to the effect that this certificate is not a warranty of quality of the shipment unless any defect in the grain is observable upon examination. It is on this provision that the legal representatives of the German grain exchange have taken their case to the British Board of Arbitration, arguing that the defect in the barley shipments from the U.S.A. was observable upon examination and that therefore the certificate, which is the same as the Canadian certificate, is not a warranty of quality.

Sould the board of arbitration find this as the fact, it is highly probable that before the Privy Council the Canadian government certificate final might become the subject of close scrutiny, if not, indeed, a legal decision.

The organized grain trade of Canada and the wheat pools of Canada through their central selling agency have it is understood, subscribed to the enquiry by the board of arbitration and the outcome of it's findings of fact are being awaited with considerable concern and interest here.

Many Perish In Fire

Over Hundred Persons Burned In Russian Theatre
Moscow.—Fire in a wooden moving picture theatre that had but one exit caused the deaths of 114 men, women and children, in the village of Igolodino, Vladimir province, 400 kilometers northeast of Moscow. The film caught fire and the flames spread rapidly through the frail structure.

In addition to the dead, 11 were severely injured and six slightly hurt. Because so many of the victims were parents, the education department has taken steps to care for the orphans. The state executive appropriated 15,000,000 rubles for the bereaved families and will adopt further relief.

Earl Arrives At Castle

Southampton, England.—Amid lusty cheers from employees of the estate and fusillades of fog signals exploded by a truck pushed along the railway line, the "rancher earl," from Alberta, tenth Earl of Egmont, and his son, Viscount Percival, arrived at the family seat, Avon Castle, in Hampshire.

Important Land Deal

Springwater, Sask.—An important land deal has been completed here by the sale by R. H. Bourke, of 15 sections of farm land, a party of Minnottites. The purchase price is said to be around \$30,000. Mr. Bourke is a prominent farmer of this district, having come here in pioneer days.

Plan Zeppelin Flight

Berlin.—Dr. Hugo Eckener, commander of the German dirigible Graf Zeppelin, states that a flight from Friedrichshafen to Rio De Janeiro, Brazil, was being considered for this year.

W. N. U. 1778

Discussing Amount and Duration Of Annuities

Committee Makes Good Start At Reparatons Key Problem
Paris.—The experts committee on reparations is making a good start at its key problem—the amount and duration of annuities with which Germany's debt will be paid.

Discussion is strictly semi-official, however, and there are still wide gaps between the hopes and claims of the different parties. But there is a spirit of conciliation in the air which seemed to justify an optimistic outlook on deliberations which soon may reach a plenary session of the committee.

France was credited with the intention of claiming ten billion marks (about \$2,500,000) of an immediate payment which Germany is expected to make.

Belgium, it is stated, will ask reimbursement of six billion marks for alleged worthless forged German currency which the German invaders left behind.

Great Britain's claims in the first payment are expected to total about four billion marks (about \$1,000,000,000). It is understood that Great Britain will claim that previous agreements do not apply to the claims of the dominion and that she expects further to be reimbursed now for what has already been paid to the United States on the war debt account.

Plans Another Trip

Over Niagara Falls

French-Canadian Willing To Dare Death A Second Time

Niagara Falls, N.Y.—Joan Lusier, French-Canadian, who successfully made the perilous trip over the falls last summer, encased in a rubber ball, probably will dare death a second time on July 4.

Lusier went over the falls in a specially constructed ball in daylight with more than 75,000 persons witnessing the feat. He was fished from the river two hours after starting his trip by William "Red" Hill, veteran riverman.

Lusier is planning to make the second trip in a vehicle which he calls a "parlor ball." The ball will be six feet in diameter, electrically lighted and so constructed that the occupant will be able to remain upright during the entire journey. It will be heavily padded inside to insure escape from any serious injury.

No Disarmament Conference This Year

Earliest Possible Date Will Be Spring Of 1920

Geneva.—League of Nations circles have informed the press that there will be no possibility of holding a general disarmament conference this year.

The earliest date it was declared at which such a conference can be held will be the spring of 1920. It is more than probable that it will be held along in the fall before it can be held.

This delay is due purely to the present lack of progress in the preparation for the conference.

It will be necessary, as was pointed out that the League's Preparatory Disarmament Commission must have at least two more sessions before agreement can be reached on a draft project for a general disarmament convention.

A Million Dollar Prize

Shanghai, China.—A three cornered contest among wind and waves, Japanese salvagers and hundreds of Chinese pirates for a prize valued at more than \$1,000,000, is taking place off the China Coast, eighty miles from Shanghai, within the Yangtze estuary. The prize consists of the North German Lloyd steamer "Gelesen" which was wrecked on the treacherous Buton Rock.

Alberta House Previews

Edmonton, Alta.—The third session of the sixth Legislature came to a close here, March 20, at 5:45 o'clock after His Honor the Lieutenant-Governor William Egbert had consented in the name of His Majesty the King, to the passage of a large number of bills and had formally accepted on behalf of His Majesty the supply granted the House.

Requests For English Charities

London, England.—Several bequests to English charities are contained in the will of R. M. Home-Byrne, formerly of the British Columbia Electric Railways, who died here recently. The estate amounted to \$700,000.

Long Search Rewarded

Father Finds Son Stolen About Forty Years Ago

Kansas City, Kansas.—Forty years of search, his life and fortune spent in quest of the babe, his boy who was kidnapped from a cradle, was rewarded when A. A. Wilhelm, 60, was reunited with his son, F. H. Elsler.

The son, now 41 years of age, is a prosperous farmer of Kent, Ohio. His mother died at his birth. The child's maternal grandmother, Mrs. Sarah Lewis, ran away with the boy from their home in Emporia, Kansas. A man named Alfred Blaser disappeared from Emporia at the same time. The boy grew up with the name of Blaser.

Danube River

Overflows Banks

Families Lose Everything In Worst Flood Since 1872

Bratislava, Czechoslovakia.—Thousands of families along the right bank of the Danube have been bereft of their homes, cattle and other belongings by the worst flood since 1872.

The great river, which is choked with millions of tons of thawing ice, was rising steadily and threatened further disaster.

Church bells tolled along its 1,800 miles length, warning dwellers near its banks to flee for their lives.

MARSHAL FOCH SUCCUMBS AFTER LONG ILLNESS

Paris.—Marshal Ferdinand Foch, famous generalissimo who led the allied armies to victory in the great war, died at his home after a lengthy illness. He was 77 years old.

Although it had long been apparent that the great general was fighting his "last campaign," his warrior heart would not give in, and day after day he fought off the inevitable end with grim courage, but a combination of heart trouble, kidney disease and a lung infection were too great for him.

On February 26, the Associated Press was authoritatively informed that the marshal's death seemed only a matter of days—a week, perhaps, or ten days. But the marshal, with indomitable will, held off death even longer than his doctors thought possible. It was sudden collapse of his heart after several days of improvement that brought death to the intrepid warrior.

"The foremost fighter in the great war," displayed in illness the same gallantry that he displayed as the commander-in-chief who led the allied armies to victory in the great war.

The national funeral accorded him is the sixth in the history of France. The five men who were previously so honored were: Presidents Carnot and Poincaré, the scientist, Gambetta, the statesman; and Victor Hugo, the poet.

Canadian Bank For California

San Francisco, Calif.—Organization of a new bank, the Canadian Bank of Commerce (California), was approved by the state banking commissioner. The action makes the delegation formed of representatives San Francisco branch of the Canadian Bank of Commerce, a separate entity from the main organization, operating under a state charter.

URGES TARIFF REPRISALS

Hon. Hugh Guthrie, acting Conservative leader, in the budget debate at Ottawa on March 7, urged retaliation by Canada in the forthcoming economic brush with the United States.

Prince Decorated

By Master Mariners

Receives Temporary Insignia Of Office While Regular One Is Being Made

London, England.—The Prince of Wales at the annual banquet of the Master Mariners, was adorned with a temporary insignia of office, an ornate badge and chain, while the actual insignia in gold and jewels is being made. It was the first meeting in his official capacity with the body to which the King last year appointed him "master."

Cabinet ministers, ambassadors, and many prominent men were present. The prince, after an allusion to the presence of the high commissioners of the Dominions, announced ardent cheers of approval to make the company an imperial body by increasing its membership by one hundred. All of the new members had been master mariners resident in the Dominions.

The prince said he regarded the proposal as a very important move and one which would serve as a great imperial link.

Says Doukhobors Are Not Communists

Look On World As One Community States Peter Verigin

Winnipeg.—Stating that communism, so-called, was nothing but a "changing of seats," Peter Verigin, spiritual head of the Christian community of all Doukhobors, asserted in an interview here that Doukhobors were not communists in the accepted sense of the term.

They looked upon all the world as one community, headed by Christ, and looked upon the country in which they were a community unit. Mr. Verigin declared that it had not been Doukhobors, but Russians living on the borders of the Christian community and wrongly considered members of it, that had been involved in trouble with educational authorities in British Columbia.

New Submarine Device

Washington, D.C.—The submarine "Lung" device which recently proved successful in tests off the Florida coast is to be furnished to the entire submarine personnel of the navy. It was learned recently. Seven hundred "lungs" have been ordered by the navy for use on its four V-type submarines. Bids for 6,300 more will be called for soon, it was learned.

MY ANGELINE

Evangeline Well, Grand Prize

Mable Wayne

low in other days. Wolfe Gilbert and Mable Wayne have given us "My Angeline," based on the "Evangeline" story and, no doubt, many other Evangeline songs will make their appearance and add to the fame of this quaint Nova Scotia valley of apple blossoms. The authors of "My Angeline" were also co-authors of "Ramona," "Chiquita" and many other popular numbers.

Trains Meet In Head-On Collision

Nineteen Meet Death In Train Wreck In Ontario

Perry Sound, Ont.—Through an unexpected mistake in the interpretation of orders, two crack Canadian National Railway transcontinental express trains loaded with sleeping passengers crashed head-on at Droucourt, a siding 46 miles north of here. Members of train crews met death when the heavy engines and the baggage cars of the trains were telescoped and passengers in a colonist car on the west-bound train were burned to death, some before the eyes of helpless trainmen and passengers.

Some of the dead may never be identified owing to the fierceness with which the flames devoured all within the car.

Railway officials estimate that 19 persons were killed, though late tonight, but six of these, all members of the train crews, were listed among the identified dead.

The passengers burned to death in the colonist car are believed to have been mostly immigrants bound for new homes in the West. Many of them were without relatives or friends in the Dominion.

The colonist car which caught fire was of wooden construction. This type of car is fitted with a stove which passengers are allowed to use for preparation of their meals during the long journey from the seaboard to the prairie provinces. The interior of these cars is wooden. It is believed that the crash overturned the stove and the car took fire from the coals which were spilled out.

The passengers, many of them asleep in their berths when the trains crashed, were caught without means of escape. Emergency trains were sent out from divisional points when news of the disaster was flashed out. The injured were placed aboard and rushed to hospital here. Some died en route.

Representative From India

Will Attend National Conference On Education At Vancouver

New Delhi, India.—The National Conference on Education at Vancouver, in April, will be probably the first occasion on which the Indian states have been represented as a separate unit of the British Empire. Lawrence Husbroke-Williams, foreign secretary of the State of Patiala, and noted historian, is the official representative of the native ruling princes and he left for Vancouver on March 22.

ALBERTA FIGHTS PLAN FOR RETURN OF RESOURCES

Edmonton, Alta.—Protesting that return of the natural resources to the province on the same basis as their return by the Dominion government to Manitoba and Saskatchewan would be unfair to Alberta, Premier J. E. Brownlee delivered a lengthy exposition of Alberta's position on the subject in the legislature.

Grounds on which Mr. Brownlee objected to the same settlement of the resources question with Alberta as with Saskatchewan, were outlined by the premier as follows:

The Dominion had made Alberta an offer, including the return of school lands and school lands funds; a settlement of the parks question on the same basis as other provinces and an arrangement that, when the financial considerations ultimately were decided upon there would be a transfer of natural resources with the present subsidy but with no increase. This is the same offer made to Saskatchewan, but that province is objecting to continuation of the present subsidy, now amounting to \$750,000 annually, arguing that it should not be fixed until the subsidy was to \$1,200,000 annually, the maximum.

It had been suggested that settlement would be made with the Dominion on the same terms with both Saskatchewan and Manitoba, said Mr. Brownlee.

If this arrangement were carried into effect, the net result would be that Alberta's subsidy would remain for all time at \$562,000 a year, while Saskatchewan would receive annually \$750,000 this being entirely due to the accident of Saskatchewan, having gained the population basis of the earlier agreement by which a larger subsidy would be paid, even though when the two provinces were created in 1905 there had been no discrimination.

WHEAT GRADING IS SUBJECT OF OTTAWA DEBATE

Ottawa.—The marketing of Canada's 1928 wheat crop came before parliament in no uncertain way recently. Following reports from the west of dissatisfaction with the work of the board of grain commissioners, and the way the crop was handled this session three resolutions were placed on the order paper of the House of Commons. One asked that in grading wheat, its protein content be taken into consideration. A second referred to the mixing of grain, and a third demanded the board of grain commissioners for leasing the so-called "hybrid" ticket. It was on a recommendation of the committee on agriculture that it be empowered to investigate all these points at one time that the discussion burst forth into the Commons and forced the business of the day.

To the various and severe criticisms which have been levelled at the board of grain commissioners, Hon. James Malcolm, minister of trade and commerce, said: "To discuss charges against the board of grain commissioners when the board has not had an opportunity to give evidence as to why they ruled or failed to rule in a certain way, I think is unfair. So far as I am concerned I have found the board of grain commissioners at all times anxious to assist in the administration of the act in the interests of the producer. Whether they have made mistakes of judgment or not will be brought out in the evidence before the committee."

He declined to comment as a minister of the crown on a public servant who has been given the opportunity to defend himself. He accordingly urged the application of the committee that its scope be enlarged, be granted by the House. The members of the board would then come before the committee to give their side of the case.

Speed Boat Title

Captured By Seagrove

English Driver Adds This To Automobile Racing Laurels

Miami Beach, Fla.—The International Speed Boat racing title went across the seas to England as the result of a race de seagrove of competition.

Major H. O. D. Seagrove added the title to his automobile racing laurels when he sent his patched and leaking "Miss England" creeping across the finish line on Biscayne Bay recently five minutes behind Gar Wood's "Miss America VII." He was officially credited with winning the two-hour race with three points, as against two for the United States speed-boat king.

Wood's boat flashed around the two-mile course in the elapsed time of 11 minutes, 45.05 seconds, for an average speed of 43.275 miles an hour. The Englishman finished in the time of 16 minutes, 50.40 seconds, for an average of little more than 42 miles an hour.

The victory went to the English driver on the basis of points scored. Wood having been forced from the first heat yesterday with no points.

Seeding In Peace River

Ten Acres Of Wheat Seeded On March Nineteenth

Edmonton, Alta.—A special to the Journal from Spirit River, in the Peace River country, says: The Blueberry settlement, twenty-five miles west of Spirit River, has the rest of the country shivered for early seeding. Jack Burrows, a rancher of Blueberry, seeded ten acres to Marquis wheat, March 19th. This is believed to be the earliest seeding on record in the North.

Work on the land in Edmonton district got off to a start on March 19, when a large seed swung into action on the provincial government farm at Oliver. This is said to be the earliest starts on the land in ten years.

Horses Win Against Turtle

Port Arthur, Tex.—Fisherman A. Wiltz hitched four horses to a seine and dragged a 1,350 pound turtle from the Gulf of Mexico. The turtle whose protective shell had been cut, perhaps by a ship's propeller, put up a hard fight before the horses finally won. It was estimated to be more than 300 years old.

Jasper Park Lodge will open on May 21; Minaki Lodge a month later.

"Its big car style made a hit with me/"

"The minute I saw it, I said, 'That's the car for me'. The first ride made me more convinced than ever. No doubt about it. It's a big car. Has all the snap and style of a big six—and knows how to behave like a big six, on the road."

"Acceleration! Watch it show a clean pair of heels to the rest of the line-up. Power! See it simply eat up the steep grades. Smoothness! Runs as sweetly as a dynamo, at six miles or at sixty, plus. 'Here's a vote of thanks to Pontiac, Fisher and General Motors, for bringing a real big-six into the low-priced field.'"

NOTES AND COMMENTS

Trying to "buck" the liquor laws is an expensive experiment for those who are caught. Down in Lethbridge one place was fined \$1000 for being open a few minutes after hours, and during the past three weeks in Blairmore and Coleman four people were fined \$300 each for clumsily trying to outwit the law. There is no sympathy coming to any who place themselves within the long arm of the law. The present liquor act was framed as a general remedy to stamp out bootlegging and permit the legal sale of liquor and the serving of beer in places licensed for the purpose. The best way to maintain the liquor privileges under the act is to see that they are rigidly observed.

Some people believe in reciprocity as long as it reciprocates in their favor.

A few weeks ago we heard a man saying there was no get-together spirit existing here, but we have failed to notice that he has exhibited any of it himself—rather he has proved himself a knacker against his own town and has proved by his actions he would rather spend his money elsewhere than among local business houses. When a man lays himself open to criticism, he usually receives it.

Some people bemoan their fancied unfortunate circumstances and envy those who appear to be a little better favored. True, there are some unfortunate ones who try as they may never seem to be able to make any progress, but to envy and grumble at the fellow who has succeeded in making a little stake is only aggravating to themselves. As a general rule we all start out with equal opportunities according to the station in life into which we were born, and the fellow who accumulates some of this world's goods to purchase comforts for himself and his family usually manages to use his head and practice thrift and economy, and maybe he has had his setbacks and losses too, but is not whining about them. If you keep your face turned towards the sunshine the shadows will fall behind you, and it will make for greater happiness.

Writing this column one searches around for something of local interest, for after all it is the local field which a newspaper of this type must cultivate if it is to be of interest. But if one were to come out flat and tell the plain unvarnished truth on many things that he is tempted to comment on, there would be many soreheads who would say, "Well, I'll stop that darned paper, anyway." Local newspaper editors are familiar with the type who if he cuts off his subscription which has become overdue will notify the post office to stop it, though fortunately this specimen is very rare. The only remedy for him is the small debts court for trying to evade a just payment. He is a four-flusher.

This Crow route promises to surpass the activity of the main line for trains, automobile and air travel. Coleman will probably be a link in the air route to the coast, the C. P. R. will complete their all-rail route by building a 35-mile link around Kootenay Lake, while the Red Trail is Canada's No. 1 transcontinental highway. Will Coleman business men and citizens rise to the occasion and plan with the view of bigger and better things in view? That is the only way to reap rewards, for whether it be business or pleasure, we get out of our efforts in proportion to the energy we expend in trying to make our dreams come true. Vision is the thing that leads to success, provided it is backed by action intelligently directed.

Speaking of dreams coming true, there is a splendid example of it in the famous Sullivan mine at Kimberley. Many an old-timer of the East Kootenay district must have had dreams when mineral wealth was first discovered there, and some fortunately have lived to see their dreams come true and have benefited thereby. But it required faith, boldness of action and fortitude to make useful the millions of tons of metallic ore that lay in the mountains of metallic enays. In our own coal fields right at hand it required steady heads and bold action to bring them to their present stage of development, but being so close at hand many fail to fully appreciate their full significance and the means they afford of producing wealth. This entire region, from the Alberta end of the Crows Nest Pass for hundreds of miles west, one vast treasure house, but the wealth it was not found by just scratching the surface, or by waiting for somebody else to come along and do the work.

Instead of using your grey matter on trying to find how you can cut down expenditures, use the same amount of thought in trying to create some additional business. You'll get a lot more pleasure and profit from it.

If one keeps their mind on accomplishing a worth-while objective, there will be no time wasted on non-essentials and idle gossip.

"WE AIM TO PLEASE YOU"

In Ancient Germany

In the first century of the Christian era we find the art of brewing known to the Germans. Tacitus in "Manners and Customs of the Germans," states that beer was their usual beverage and from his description there can be no doubt that the method of converting barley into malt was well understood.

Today malt beverages
ALE — BEER — STOUT
are considered Health Drinks.

Where BEER has once been introduced, it has generally become the national beverage . . .

Local News

Mrs. Armitage and Mrs. H. Hughes of Calgary were visitors at the Eastern Star meeting on Thursday last.

This evening Minerva Chapter O.E.S. will hold a whist drive and dance for members and their friends.

Mrs. Carson, who has been visiting with her parents, Mr. and Mrs. G. R. Powell for the past few weeks, left this morning for Calgary.

The prize-winners at the K. of P. whist drive last Saturday were; Mrs. Hill and Mrs. E. Cousins, Mrs. Gillespie and Mr. Nicholson. Refreshments were served after the whist, followed by a dance, with music by Mrs. Salt's orchestra.

A free-for-all fight between a few men on Monday evening resulted in them being summoned to appear in the police court. Constable Houghton states he will promptly step on any who make disturbances on the streets, and make themselves a public nuisance.

MUSICAL FESTIVAL AT BLAIRMORE OPENS MONDAY

There will be quite a number of individual entries from Coleman and the amateur orchestra is also competing. The festival continues for three days, concluding with a grand recital on Wednesday evening in which competitors take part.

Blairmore Young People Give Interesting Plays

Repeating their play held a week ago in Blairmore, the young people gave their plays in the Opera house here on Tuesday evening. The following report from the Blairmore Enterprise fully covers it:

The play, "A Garden Cinderella," had its setting in a garden on a 1927 summer midnight, and the characters were represented as follows: Lily, Leona McDonald; rose, Lorraine Olivier; forget-me-not, Evelyn Semmens; daisy, Doris Sartoris; buttercup, Florence Picard; green worm, Carlotta Fleming; west wind, Frank Fleming; rainbow fairies—red, Dorothy Campo; orange, Annie Cato; yellow, Eleanor Aschacher; green, Mabel Quarin; blue, Veronica Kubik; violet, Evelyn Naast; fireflies—Allan Gillis, Omer Bouchard, Primo Furlano, Joe Bielli, Angelo Pozzi, Jim Murphy.

The second scene centred around a garden on a summer midnight in 1928, with Beatrice Trono and Carlotta Fleming cleverly representing the "Spirit of the Garden" and "Luna Moth," respectively. The butterfly dance by the latter was particularly well performed. A chorus, "It's only a step from Killarney to Heaven," was pleasingly rendered by the following: Rose Christy, Annunziata Aschacher, Enis Aschacher, Dorothy Olivier, Rolanda Maniquet, Olga Vanota, Joan Bouchard and Anna Kubik.

The characters represented at "Aunt Dinah's Quilting Party" were: Aunt Dinah, Miss K. Tompkins; Mrs. Marks, Miss A. Picard; Deacon Peabody, Mr. J. V. McDougall; Reuben Holdcroft, Bob Collins; Freddie, Milo Fabro; Mrs. Martin, Miss B. Pozzi; Mrs. Doolittle, Miss F. Fabro; Cicely Martin, Miss Dora Drain; Hetty Peabody, Miss L. Brunetto; Mirandy Spriggins, Mrs. Fleming; Nellie Sanderson, Miss Sophia Kubik; Grandmother Pepper, Mrs. T. Murphy; Mr. Goodboy, Mr. J. Roufesse; Mr. Hunter, Mr. L. Pozzi; attendant girls, Polly Biegan and Anna Kubik; attendant boys, Norman Picard and John Chala. Many a scream of laughter was elicited during this performance and the house was really brought down by Milo Fabro in his dramatization of the unruly school boy.

Several solos by Miss L. Brunetto were well received, as were also the selections by the new Piard orchestra.

Mrs. G. M. Bond acted as piano accompanist throughout.

For First-Class Work and Quick Delivery, send your HEMSTITCHING to Barton's Music & Sewing Machine Store, Fernie, B.C.

PERSONAL STATIONERY

The Journal office will print 100 good quality envelopes for \$1.00, or 100 letter size paper for \$1.00, printing limited to three lines consisting of name and address. Cash at the time of ordering. Leave an order for your personal correspondence.

Antrobus' Sell Good Shoes

Without doubt the best method of advertising is through the newspapers. You get your message into the hands of more people at less cost than any other form of advertising, and the fact that the manufacturers, distributors and department stores spend the greater part of their advertising appropriations through the newspapers is based on long experience of which is the most profitable form of advertising. The local merchants of Coleman should see that their weekly message appears in The Journal if they wish to maintain the closest touch with the people whom they wish to come into their stores. Steady, constant advertising always pays, when backed up by truthful selling and a desire to sell goods without undue profit.

'Redskin' at the Palace
"Redskin"—an outcast! Richard Dix's thrilling drama of the redman's struggle against white civilization. The romance of a college-bred Indian of to-day. Filmed in natural color in the gorgeous Indian country. At Palace Fri. and Sat.

Good & Beautiful
Blue Ribbon Tea

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavor is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

WORLD HAPPENINGS BRIEFLY TOLD

The Prince of Wales won nearly all the principal prizes at the fourth annual show and sale of Shorthorn bulls at Birmingham.

Admiral Alfred Von Tirpitz, who led the Imperial German navy during the Great War, was 80 years old March 19.

Lord Lovat has resigned from the chairmanship of the Overseas Settlement Committee owing to ill health. He has now almost completely given up public life.

The Turkish government has paid foreign bondholders the first installment on the Ottoman debt, the total of which is \$482,000,000 and is to be paid within 27 years.

French volunteer dreamers who make up the bulk of the fire fighting forces are attempting to organize the first firemen's world's fair, to be held in Paris in 1929.

The British treasury has received \$20,000,000 as the sixth installment on the French war debt, and \$725,000 as the seventh installment on the Italian debt.

In order to enable him to become acquainted with public affairs from the diplomatic angle, Prince George, the King's third son, has taken up temporary duties in the foreign office.

Graham Jardine, 55, former branch manager of the Royal Bank in western Canada, and for the last five years connected with a Toronto brokerage firm, died suddenly in that city.

The government of Cuba has formally notified the Canadian government that it accepts the agreement concluded at Ottawa, in January, in regard to the division of the short radio waves in the North American area.

Conquest by the air by feminine pilots was advanced by Mrs. Louise McPhetridge Thaden, 23, of Oakland, California, when she remained aloft in the lonely cockpit of her biplane for 22 hours, 3 minutes and 12 seconds to establish a new endurance flight for women.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

Creations Of Habit

We are unreasonable animals many of us. The person who sputters like a hot tea kettle because he is required to button his raincoat every morning and unbuckle it every night—day after day, month after month, year after year—a long and dreary round of monotony walls like a fire screen when one little button comes off.

The Right Idea

Uncle Ezra: "My nephew, the aviation student, writes me as how he did his first 'solo' on Wednesday. He was 2,000 feet in the air."

Uncle Benn: "Well, if a fellow is going to practice singing, that's the place for him to do it!"

NEW APPOINTMENT

R. HENDERSON

who has just been appointed Canadian National Railway's Industrial Agent for the Alberta district, with headquarters in the station at Edmonton. Expanding industries in the west, and eastern concerns which are looking to the opening of western branches, will be assisted by Mr. Henderson, who will do for Alberta what Mr. Robin and Mr. Chambers, both recently appointed, are doing for the Saskatchewan and Manitoba districts. Mr. Henderson entered the services of the National system in 1912.

To Improve Maple Industry

Producers In Canada Will Ask Legislation From Government

An organization has been formed of Canadian producers and manufacturers of maple products which will submit to the Dominion Government a request for legislation to improve the condition of the industry. The chief demands will be for more stringent laws against adulteration; inspection to prevent adulteration; and a campaign of publicity to secure greater consumption of maple products in Canada.

The Royal Canadian Golf Association has decided to hold the Canadian Amateur Championships on the Jasper Park Lodge course this year, from August 19 to 24.

FASHION

No. 286—Youthful Flare. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 3 yards of 40-inch material with 1½ yards of binding. Emk No. 11138 (blue) 15 cents extra.

No. 209—Parisian Simplicity. This style is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 3½ yards of 40-inch material with ¾ yard of 36-inch contrasting.

No. 140—Step To Smartness. This style is designed in sizes 16, 18, 20 years, 36, 38, 40, 42 and 44 inches bust measure. Size 36 requires 3 yards of 36-inch material.

No. 161—For the Smart Junior.

This style is designed in sizes 10, 12, 14 and 16 years. Size 12 requires 2½ yards of 40-inch material with ¾ yard of 36-inch contrasting.

No. 637—Playtime. This style is designed in sizes ½, 1, 2, 3, 4, 5 and 6 years. Size 4 requires ¾ yard of 40-inch material with ¾ yard of 32-inch contrasting.

All patterns 25 cents, in stamps or coin (cash preferred). Wrap coin carefully.

SUNDAY SCHOOL LESSON

MARCH 31

THE FUTURE LIFE (Easter Lesson)

Golden Text: "Be thou faithful unto death, and I will give thee the crown of life."—Revelation 2:10.
Lesson: Matthew 23:31-46; Mark 12:26, 27; Luke 24:1-12; John 14:1-6; 1 Corinthians 15:3-20, 50-53; 1 Thessalonians 4:13-18; Revelation 22:1-5.
Devotional Reading: Psalm 23:1-6.

Explanations and Comments

The Resurrection of Christ, Luke 24:1, 2.—Early on Sunday morning after the crucifixion of Jesus, Mary Magdalene and other women came to the tomb where His body had been laid, to embalm it with the spices they had prepared. All the way they had been worrying about the great stone that blocked the entrance to the tomb. They could not move it, and who would be there to move it for them? But when they came within sight of the tomb, lo, they saw that the stone had been rolled away. Christ had risen. "Why seek ye the living among the dead?" were the words they heard. Was it true? Jesus was there. They were full of fear and full of joy, half fearing and half believing. And then the men. There they were, the same Jesus, and their fear and doubt vanished. He was risen, even as He said.

We no longer fear what lies beyond the grave. We know that we do not really die, that we pass through death to another life. We know that we shall live again, and in that knowledge we lose our fear and find hope and joy.

"May Easter Day
To thine heart say,
'Christ died and rose for thee.'"

"May Easter night
To thine heart write
'O Promise, I live to Thee.'"

The Promise of Christ, John 14:1-3.
"Let not your heart be troubled; believe in God, believe also in Me." In spite of everything the disciples must trust in the goodness of God and in their Lord's own loving thought for another life. Faith is still the cure for heart-trouble, the sure reliance in anxious moments. Not a moment's doubt, but a firm belief in His goodness and wisdom, and the faith that will keep the heart from despair in times of danger and dread.

"Twas the Master Himself who said it.
To the sorrowful little band,
Facing an hour of darkness
That they could not understand."

To Asthma Sufferers. Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope—something he has come to believe impossible. Its benefit is too evident to be questioned—it is its own argument—its own best advertisement. If you suffer from asthma get this time-tested remedy and find help like thousands of others.

Contention Is Right

Issuance of laundry receipts in Chinese will be illegal in New York State, if a bill recently introduced by Assemblyman Mark C. Kelly, of Utica, is passed. It provides that every laundry establishment, upon receiving clothing, shall issue a receipt in English, itemizing each article received. Said Assemblyman Kelly: "A Chinese laundry ticket does not mean a thing to the recipient if he is a one-language American."

A Corrector of Pulmonary Troubles. — Many testimonials could be presented about the great efficacy of Dr. Thomas' Electric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience, and the Oil is recommended to all who suffer from such disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Cloves came from the Indies and take their name from the Latin *clavus*—meaning a nail, to which they have a resemblance.

The onion first came from India. The onion was almost an object of worship with the ancient Egyptians.

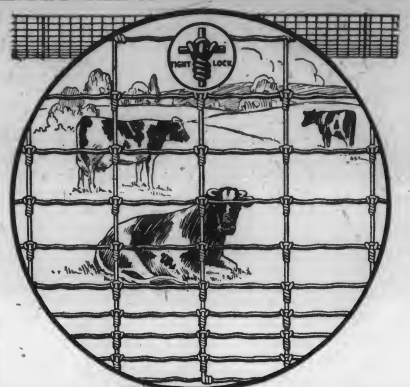

Could Not Sleep Heart Would Start Pumping and Pounding

Mrs. Fred. P. Averill, 139-126 Ave. Calgary, Alta., writes:—"I was bed-ridden so much with my heart I could not sleep. I would wake up in the night screaming, and my heart would start pumping and pounding. A neighbor lady told me to try

so I started taking them and I can truthfully say I am a different woman. Altogether I only took two boxes."

When Canaders Carried Cows

Just Difference Between Past and Present Of Steamship Travel

Amazing facts are given by E. D. Breton, of London, England, who writes of the past and present of steamship travel, and refers to the famous old "Britannia," which was the first steamer to cross the Atlantic on schedule, and which was the product of the imagination of Sir Samuel Cunard, of Halifax, Nova Scotia, founder of the Cunard Line.

For instance: the Britannia was the wonder ship of her day, yet described by the imitator Charles Dickens as having a saloon "not unlike a gigantic hearse," with sleeping berths comparable only to coffins. Her staff comprised two stewards, a cook, a kind of cabin boy and the navigation crew. She carried a cow abroad to supply fresh milk. Her bathroom would have disgusted any traveler of today, and may have disheartened many prospects of those middle eighties.

Gone is the Britannia. Sir Samuel is gone too. Today the monuments to the man and his crude little steamers are the famous Canaders which ply across the Atlantic to and from Great Britain, and Europe, and Canada, and the United States, and cruise into the seven seas of the world with their red funnels topped by a black band.

For instance: the world's fastest liner, the Canader "Mauretania," cruises along at about 30 miles per hour. The Canader "Berenaria" houses 4,000 souls, and carries hundreds of bathrooms for passengers who can either pay the same old Britannia ticket price for accommodation undreamed of in those days, or pay as high as \$5,000 for luxury that kings could not get in days gone by. Passengers can now hold swimming parties in the ship's pool, stage balls, or send facetious messages by wireless to friends ashore. They trend on the Canader "Aquitania" three miles of carpet, benefit by her 10,000 electric lights, and 1500 push bells, and are cheered by her 2,000 yards of silk damask wall-coverings. Hectic travellers cross the Atlantic in about four days from New York on the Mauretania, and marvel at her speed, which has lasted 22 years, and at her record of total mileage which runs into the millions.

Sultan's Son a Fiddler

After looking in vain for a rich American girl to marry and restore his shattered fortune, Prince Abdul Kadir, the son of the Sultan of Turkey, who today might be sultan of Turkey had not Mustafa Kemal made that country a republic, has sought permission from the minister of labor to join a gypsy orchestra as a violinist.

It is estimated that British workers spend \$150,000,000 yearly in travelling between home and place of employment.

The peach originally came from Persia.

Use Minard's Liniment for the Flu.

Will Maintain High

Quality Of Beef

Grade Must Be Satisfactory To Receive Government Brand

As soon as the necessary inspectors can be appointed at local points, the Federal Livestock Department will inaugurate a policy of branded beef, with the Federal Government responsible for the maintenance of high quality of the brands which it approves. In order to qualify under this scheme of Government certification, the beef must have been slaughtered in a Government-inspected abattoir and bear the Government inspector stamp. It shall then be submitted to the Government inspector and, if satisfactory grade, the brand of quality will be affixed to it. The best meat then be retailed through an establishment approved by the Government.

Reindeer For Canada

A cable from Stockholm states that a consignment of 300 live Swedish reindeer has been shipped to Canada through a Norwegian port. This is the largest shipment of the sort ever to go forward.

What Will you do

When your Children Cry for It

There is hardly a household that hasn't heard of Castoria! At least five million homes are never without it. If there are children in your family, there's almost daily need of its comfort. And any night may find you very thankful there's a bottle in the house. Just a few drops, and that colic or constipation is relieved; or the baby chokes. A vegetable product; a baby remedy meant for young folks. Castoria is about the only thing you have ever heard doctors advise giving to infants. Stronger medicines are dangerous to a tiny baby, however harmless they may be to grown-ups. Good old Castoria! Remember the name, and remember to buy it only where you see the Baby on the label. It is always ready, always safe to use; in emergencies, or for everyday ailments. Any hour of the day or night that Baby becomes fretful, or restless, Castoria was never more popular with mothers than it is today. Every druggist has it.

Indigestion

What most people call indigestion is actually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude boric acid. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

CHAPTER XVII.—Continued

Men hurried to do his bidding. When the stretcher bearers leaped to lift the inanimate body, Hoop-la fiercely interfered. "Let him alone," he said savagely. Stopping, he picked up the light form and bore it down the hill to their bed in the rough log shack. Donald forced a few drops of brandy through the dying man's colourless lips. Blackie stirred feebly. His eyes flickered open and he smiled as he recognized Hoop-la.

"Give me your hand," he whispered faintly. "I'm runnin' my last high-lead, old pal. I guess God'll be good to us rough-necks." He gasped painfully. The irregular breathing ceased; his eyes became fixed and glassy, his jaw sagged.

Hoop-la sat motionless, the hand of his dead friend held in his warm clasp. Slowly his head dropped forward and his big frame shook with dry racking sobs. Doctor Paul came in hurriedly. In answer to the look of interrogation in Donald's eyes, he shook his head sadly.

Donald and Wilkinson tiptoed softly to the door. They were unshamed of the tears that made furrows down their blackened cheeks. Cried at heart, utterly overcome by this tragedy, Wilkinson sank dejectedly to a seat outside the cabin door and covered his face with his hands.

There came a sudden patter of raindrops that descended on the roof of the cabin. Wilkinson stood erect with arms stretched wide. "Rain!" he cried. "The merciful rain! Thank heaven!" He stood with face upturned for an interval, enjoying the pelted downpour, then turned to look in the cabin door, a deep and brooding sadness in his bloodshot eyes.

"Donald," he said gently, "the newspaper account of this fire will mention the fact that a logger was killed. A logger!—yes—men like Blackie are the backbone of this country, the salt of the earth. Will people ever learn? He continued with a voice vibrant with deep emotion. He pointed to the barkless skeletons of trees blackened and charred and branchless save for the gibbet-like limbs stuck out from the naked trunks. "Think of it! All this—the smiling out of a valuable life—a verdant hillside changed to a charnel-house of dead trees and blackened stumps on bare rocks—the loss of thousands of dollars worth of valuable timber—all this caused by the careless dropping of a lighted cigarette!"

CHAPTER XVII.

Donald's announcement that Labor Day would be celebrated at the Lake was received with good-natured approval by the men of the camp, who spoke of the coming event as a "dry" holiday. The rain, which had

troubled many times in water-needs, finally found its vent. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any drugstore.

brought such blessed relief to the hearts of the guardians of the forest, had cleansed the air of the last vestige of haze that had overhung the valley for the past month.

The morning of the holiday dawned auspiciously. The hot days of August had given place to the mild sunniness of Indian summer. Through the crystal clear atmosphere the mountains seemed much nearer, standing out sharply against the blue sky. Near the top there had been a fresh fall of snow that had covered the bare ice of the glacier like a white mantle. The brilliant rays of the September sun were reflected from this virgin covering with a brilliancy that was dazzling to the eyes.

Janet arrived for the occasion, bringing with her a score of her friends. All through the previous day the trail from the north had brought strings of cayuses from the Indian Reserve, their dusky riders gaily bedecked in holiday attire. "Kishoway, Ullikum!" they shouted, their coffee-coloured faces lighting up with a grin that betokened a gala day spirit. Their tents dotted the lake-shore, their camp fires glowing cheerfully throughout the night.

The sports committee had arranged a varied list of events. A rowing race between the two camps; a sack race, free for all; a basketball game between the whites and the Indians; a sawing race in which two "buckers" from each camp would participate; a hundred-yard race, a log-rolling contest between a man of the State of Maine and a citizen of New Brunswick. But these were mere preliminaries to the real event of the day, the much advertised horse-race. The men from the other camps, arrayed in their "sporting" attire, their appearance early in the day.

Each camp brought its quota of sandwiches and cakes, but the brunt of the work fell on Andy and his assistants, who piled tier upon tier of sandwiches on the long tables under the willows by the lake-shore. The jargon was in half-barricade at each end of the tables, with a "help yourself" sign attached.

Old kitchmen, with stolid, cross-barked faces, etched deep with cross-hatching of wrinkles, walked through the throng laden with baskets of food. "Mika take," quavered their aged voices as they held forth their wares. About eleven o'clock Mr. Walnwright appeared alone.

"Where's Connie?" asked Donald. "As you are aware, Mr. McLeod said that he is very shy. I could not induce her to accompany me."

"That will never do," said Donald quickly. "I am going after her."

"I am afraid that your trip will avail you nothing," smiled Walnwright in his absent-minded way.

Donald borrowed a cayuse and set off on the trail. He hitched the horse at the edge of the clearing and proceeded on foot down the path, his socks making no sound on the soft dark earth. As he turned a clump of alders and came in view of the camp, he stopped short, arrested by a sight he suddenly elicited his amused interest.

Connie stood outside the door before a small mirror hung on the rough log walls of the house. She was attempting to place her heavy hair in a knob at the top of her head. A page cut from a magazine, was tucked to a log near the mirror. She studied the photograph carefully, then returned to the attack with renewed vigour. But she could not get it to suit her. She tried and tried, but the heavy shining coils would elude her slender fingers and fall in a golden cascade over her slight shoulders. Her efforts to reach a satisfactory result brought her to the verge of tears. She stamped her little foot impatiently. At last she got it arranged in a fair semblance to the rest of the envied actress. The effect was so startling that Donald fairly gasped. The child of the moment was transformed, as if by a fairy's wand, to a woman of wondrous grace and beauty.

Connie perked her head slightly, then half smiled to show her small milk-white teeth; apparently she was pleased with the reflection she saw in the glass. From the clothes-line she took a flour sack that had been split open and washed to be used for drying dishes. Draping this from her wrist line, she plinned it securely. Assuming a haughty pose, she walked past the mirror with a snubbing movement. The little air-tight was so perfect in its mimicry that Donald's lip involuntarily formed the word "Janet." Twice she passed before the tiny mirror with her characteristic bird-like motion to catch the reflection.

Gradually the queasily posed slipped from her. She stopped abruptly, throwing out her arms with a forlorn gesture. Her golden head fell forward. Two big tears welled up from her blue eyes and ran down the small freckled nose. Her small hands plucked convulsively at her faded blue overalls. A sob like a stab pain shook her slender body. One arm came up slowly to cover her tear-wet face as she threw herself face forward on the grass. Her slender shoulders were shaking with such an agony of weeping that Donald's throat felt constricted and his eyes grew suddenly dim.

Her spotted cayuse, grazing near by, raised his head at the sound of Connie's hysterical sobbing and moved to the small figure of his mistress. With ears bent forward and a look of bewilderment in his soft eyes, he nuzzled her neck with his velvety nose. The sobbing continued, but her brown hand came up to pat his head lovingly.

Donald tiptoed softly back to the trail. He stood for some time with his hand on the saddle, his head bowed in deep thought. "Poor little kid," he said gently, then whistling softly, he slowly retraced his steps to the cabin. He entered the clearing just in time to see Connie as she disappeared in the timber across the field. He did not want her to know that he was aware of her plight, so he knocked loudly on the door and shouted her name. A raven croaked derisively from the top of a dead tree. The pony raised his head to eye him silently. Connie's pet deer came around the corner of the barn, a look of quiet questioning in his beautiful big eyes.

Donald rode slowly back to camp. Connie's distress had touched his heart; her heart-breaking sobs were still ringing in his ears. "It is not that Walnwright does not love his daughter," mused Donald. "It must be that he is very poor."

"Don't see how I can help," his thoughts ran on. "One can't very well suggest to a father that he buy clothes for his child."

Andy rang the lunch-bell, and there was a wild but good-natured scramble for the tables.

A long table had been arranged in the big dining-room for the officials and Janet's party to which Donald had invited Mr. Walnwright.

"Who did find Connie?" queried Walnwright.

"No," lied Donald, "I couldn't find her."

Janet's friends were having a merry time. There was laughter, jesting and gay repartee from all sides. The Douglas was in his element, his quips and brilliant sallies keeping the diners in a continual uproar.

As Donald glanced around the big table at the laughing faces of his gay party, he tried to visualize Connie, dressed as one of the fashionable Vanaby-clad girls who represented Vancouver's "younger set." The vision he conjured caused him to smile dreamily.

Janet had manoeuvred to secure a seat beside Donald. In spite of all her artful coquetry, she had been unable to have more than a few words with her father's busy general superintendent since her arrival. She noticed the dreamy smile on his face and wondered what could be the cause.

PIMPLES CAUSED SEVERE ITCHING

On Face, Neck, Hands and Head, Cuticura Healed.

"My skin trouble started with pimples and red blotches that affected my face, neck, hands and head. The pimples were hard, large and red, and festered and scalded over, causing disfigurement. They also caused severe itching and burning, and I could not sleep at night with the pain. The trouble lasted about two months."

"I tried several other remedies which did not give me any relief. I began using Cuticura Soap and Ointment and they helped me after a few applications, and in two weeks I was completely healed." (Signed) Miss Muriel Gibson, Huggett, Alberta.

Use Cuticura to clear your skin. Soap, 25¢; Ointment, 25¢; and 25¢. Sold everywhere. Write for booklet, "Cuticura Cures Skin Diseases," to Cuticura Shaving Stick 25¢.

"You seem rather distraught," she said with an arch smile, her dark eyes fixed on his face. "Aren't you enjoying yourself?"

(To Be Continued.)

Infalible Finger Prints

System Used By Scotland Yard Has Been Greatly Improved

The use and importance of finger prints in the detection of crime is emphasized in a book published by Sir Edward Henry, former commissioner of the Metropolitan Police.

The number of identifications made during 1927 was more than 34 times greater than the largest number effected in a year by the old method. This depended on the unchanging measurements of parts of the human frame.

At Scotland Yard the ring finger of each hand is recorded and the slips are divided into 64 sub-groups. A search among 100,000 prints can be completed within five or six minutes, by a practised officer.

He carries in his eye the salient features of the slip he is looking for and can search for it as rapidly as his hand is able to turn over the record slips.

Appointed To Railway Board

John A. Stoneman Will Succeed Hon. Frank Oliver

John A. Stoneman, Saskatoon, Sask., has been appointed as a member of the board of railway commissioners, to succeed Hon. Frank Oliver, who recently retired. Mr. Stoneman is a past president of the United Farmers of Canada, and is at present a member of the Royal Grain Commission, appointed by the Saskatchewan Government to acquire into conditions affecting the grain trade.

It is understood that Mr. Stoneman will take over his new duties on the conclusion of the work of the grain commission.

Bristling With Thirteen

Superstitions People Should Avoid American Silver Quarter

Londoners have a deeply rooted idea that five shilling pieces are unlucky.

It is very hard, says a writer in Pearson's Weekly, to find the origin of this queer idea, yet it is an absolute fact that many waiters and waitresses have even to handle a five-shilling piece owing to their fixed belief that it will bring ill luck.

If it were the American silver quarter dollar, one could understand the superstition, continues the article, for surely, of all coins ever minted, this is the most risky. The quarter is twenty-five cents, which roughly corresponds to our shilling, and it simply tempts with thirteen.

It has thirteen stars, thirteen letters in the scroll in the eagle's beak, thirteen feathers in the eagle's tail, thirteen parallel bars on the shield, thirteen horizontal stripes, thirteen leaves on the olive branch, thirteen arrows and thirteen letters in its name "quarter dollar"—an amazing collection of thirteens!

A PERFECT MEDICINE FOR LITTLE ONES

Baby's Own Tablets Should Be In Every Home—Where There Are Children

The perfect medicine for little ones is found in Baby's Own Tablets. They are a gentle but thorough laxative which regulates the bowels, sweetens the stomach, drives out constipation and indigestion; break up the bile, soothe the nerves, and promote healthful and refreshing sleep. It is impossible for Baby's Own Tablets to harm even the newborn babe as they are absolutely guaranteed free from opiates or any other injurious drugs. Concerning them Mrs. Earl Taylor, Owen Sound, Ont., writes: "I have four children and have always used Baby's Own Tablets. I am never without the Tablets in the house as they are the best medicine that I know of for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Discover Old Observatory

Instruments, All Of Stone, Are In Excellent Condition

Workmen, digging a canal in Buelzow, Mecklenburg, discovered an old observatory which archaeologists declare dates from 1151 B.C. A stone circle with markings showing observations on the sun's positions throughout the year served as a chronicle.

The instruments, which are all of stone, were found in excellent condition, and a fair measure of solar altitude can be made even now. Several museums are bidding against one another for the possession of this old Nordic relic.

A telephone service, between Stockholm, Sweden and Buenos Aires, Argentina—a distance of 8,062 miles—has been inaugurated.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light long through windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold and rain, and lets in the sun's rays. It is made of a pair of sash and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, (cable), Toronto.

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100 % Sunlight Send for booklet "WINDOLITE"

Distributors: JOHN A. CHANTLER & CO., LTD. 51 Wellington St. W.

The sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that WINDOLITE is a most effective substitute for glass, that it uses the most beneficial effect of the sun's rays and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

Guard Against FLU—Sore Throat The First Warning.

Few families will escape. This epidemic constitutes a real danger. Health authorities everywhere warn the public of the danger of the common cold. "Flu" usually starts with Sore Throat. Unless the germs are killed by some antiseptic treatment a serious malady may develop.

A simple treatment is to gargle the throat three times daily with Nerville. The antiseptic properties of Nerville quickly destroy the germs in the throat. Or course if the chest is sore Nerville should be rubbed over the affected area. Lots of rubbing can't burn a blister, but will bring out the congestion and break up the cold.

To prevent "Flu" or colds from gaining headway Nerville will prove most effective. It is hardly necessary to point out that the bowels should be stimulated, and the system purged of all waste materials. For this purpose Dr. Hamilton's Pills are recommended. They act without griping or discomfort of any kind. This combination treatment of Nerville and Dr. Hamilton's Pills will prove a very satisfactory prevention for Grippe, Flu, etc.

Personal and Local

Sheila Currie, niece of Rev. and Mrs. Currie, of Calgary, will spend the Easter holidays at the Rectory.

Miss Edna Fairhurst returned on Friday from Calgary Normal and will teach at a school near Cowley as part of her teacher training course.

Remember the pantry sale and sale of work in the parish hall on Saturday afternoon by the W. A. of St. Alban's church.

Pete Sharp was struck over the eye while loading cars in the McGillivray mine, which will lay him off work for some time.

Mr. and Mrs. Robert Young, formerly of Coleman, who for the past year have been living at Lettbridge, have now moved to Granum.

A very fine selection of potted plants on sale by Mrs. Graham at the Cabinet Cigar store will prove interesting at this season.

Eric Bergquist returned last Saturday morning from Mercau after working for the past few months there.

Last Saturday morning a real touch of winter visited, the thermometer dropping to twelve degrees above zero.

Mr. and Mrs. Evans of Coleman were guests on Tuesday of Mr. and Mrs. Walter Marcellus, of Pincher Creek Echo.

Many new faces are seen in town these days, owing to the mines taking on additional men. All hotels are full and many are seeking accommodation in private homes.

Supt. and Mrs. Reid of the power plant at Crows Nest Lake, expect their son home shortly from university at Victoria, to spend the summer with them.

The heavy wind of Monday night and early Tuesday morning caused many people to experience a rather sleepless night, but no damage is reported.

It is the business men of a town who determine what kind of a town it is to live in and do business in. They must lead if a town is to forge ahead, and must put forth some constructive effort.

It has been decided to open Water-ton Lakes hotel on April 1st. This decision was arrived at after Mr. P. Kuschel, manager of the hotel and chalets, had met the directors at Lettbridge.

Q. E. S. Whiteside, general manager, and H. V. Hummel, secretary, International Coal & Coke Co. Ltd., left on Sunday night for Vancouver to attend the annual meeting of shareholders of the company.

Several of the members of Minerva chapter, Coleman, Vinny chapter of Blairmore, and Hillcrest chapter, of Hillcrest, attended the regular session of the Castleview chapter, O.E.S., on Tuesday evening, it being the official visit of the Grand Worthy Matron—Pincher Creek Echo.

Mrs. Savage, grand worthy matron of the O.E.S., paid her official visit to Minerva chapter on Thursday evening last. During the evening, which ended in a banquet, Mrs. Savage was presented with a suitable memento of her visit. She complimented the members for the manner in which they carried on the work.

Cecil Altham, formerly of Macleod, and later employed by Tripp Motors, New Westminster, B.C., Buick and Pontiac dealers, has joined the mechanical staff of Coleman Garage. Fred Lees is expected soon to engage in the office end, instead of Mr. Sweetlove, who will remain in Edmonton.

Those who intend to hear the Westminster Glee Singers in the Opera House on Tues. April 9, would be well advised to purchase their tickets well in advance, as there has already been a heavy advance sale, and the best way to ensure securing a seat is to purchase either a reserved seat or a general admission ticket, at Rushton's store.

The Journal acknowledges a copy of the Gleichen Call forwarded by Hubert Clark, containing a report of the visit of Coleman hockey team to Gleichen on March 9. After the games both teams were entertained at the home of Mr. and Mrs. E. W. Taylor, and were made royally welcome by "Bill" and Mrs. W. Taylor. The Coleman boys voted Gleichen the most hospitable place they had played in, since the report.

Trail's defeat by Port Arthur hockey team in Winnipeg on Saturday evening was generally regretted by western fans, and many are asking why it was that Anderson's qualifications were not questioned till the time came to play in the western finals in Winnipeg. Doubtless the residence or registration clause of Anderson had been overlooked, but it does not appear to be good sportsmanship to take advantage of such a slip right at the end of the season.

The annual boat race between crews from Cambridge and Oxford universities excited the usual keen interest among English people the world over on Saturday last, when Cambridge won for the eighth consecutive time. It was the 81st race and each has 40 wins to their credit, with one dead heat. The race takes place on the River Thames every year, the course being between Putney and Hammer-smith.

EARLY BIRDS

G. R. Powell and J. Wood have already taken a round on the golf course. They found that the club house had been broken into and some destructive vandals who deserve to be licked so that they would remember it for many a long day had broken up two lawn mowers and caused other damage. A week or two ago the opera house was broken into and the racks of Badminton players were destroyed. There is only one remedy for this, and that is if the perpetrators are discovered, to give them punishment that will hurt so much that they will be very loath to do such things again, and set an example to others who may be so inclined.

Delicious

Hot + Buns

Temptingly brown and golden—deliciously fresh and appetizing are the Hot Cross Buns baked at the Coleman Bakery.
